Degree and Diploma Day Ceremony

18th OCTOBER, 1951

✓ ADDRESS BY

SIR HAROLD CLAUGHTON, C.B.E., M.A.
Principal, Polish University College

This is a somewhat notable occasion in that it is the first time since the constitution of the Polish University College, that a Ceremony has been held to bring together as many of our graduates as possible.

It is certainly a notable occasion for me personally, in that it enables me to introduce myself to the distinguished company of those who have, in the pursuit of learning, survived the strains and stresses imposed not only by our most excellent Teaching Staff, but also by those Grand Inquisitors known as Boards of Examiners, and have reaped the various rewards of virtue—be they the College Diplomas in Engineering or in Architecture, or, more recently, the External Degrees in Economics or in Commerce of the University of London, in which I served for nearly a quarter of a century. In the next two years there will also be, I hope, a full harvest of Degrees in Engineering from the same source.

As most of you may know, I myself have only recently come into your world. To the present generation of students I must, I fear, present a dim, but I hope, not formidable figure—like some old Charon plying his ferry across the River Styx, but doing his best to give his passengers a good start off when they reach the other side and the Elysian Fields of High Adventure.

WYMIANA

To mix my metaphors still further, let me assure you that I find my consignment a pretty lively crowd of corpses.

And let me also assure you that I find my present task one of the greatest interest. One thing, coming in as a complete stranger, has struck me particularly, and that is that every Pole I have met, seems to have been brought up on the motto of the great School of which Sir George Gater is now Warden (I refer, of course, to Winchester). The motto is "Manners makyth Man," and that goes for Woman also.

Now, as you all know, the original aim in this country (and this goes back to 1942, when the Polish Board of Technical Studies was established) was to provide facilities for such Polish servicemen whose University studies had been interrupted by the outbreak of the war in 1939, to complete their studies, and thus eventually to form a nucleus of trained engineers and architects whose services would be required in the rebuilding of your devastated country.

That original aim was frustrated by what happened immediately after the war. Nothing daunted, a new target was set up, and when, in April, 1947, the Polish Resettlement Act became law, the Polish Board of Technical Studies was reorganised as the Polish University College, and under the Further Education and Training Scheme, those of you who were unable to return to Poland were given the opportunity to acquire a University education.

Let us remember that, having obtained help from the British Government in the form of a grant, it was your own countrymen who provided accommodation, and this was a most important factor, since, without the help of the Polish University College Association Limited, and the buildings provided by that body for rent by the Polish University College, it would have been extremely difficult to carry out the projects for higher education for Polish ex-servicemen and women.

It was naturally felt that it would be easier for you to resettle if you obtained British qualifications, and although the Diplomas in Engineering were based on the Polish Technical

Universities' curriculum, younger students entering the Engineering Faculties of the Polish University College have been following the curriculum leading to the University of London B.Sc. Engineering External Degrees.

Here I wish to pay tribute to the work of the late Principal, Professor E. G. McAlpine, appointed in March, 1947, to be the first Principal of the College. To-day the Polish University College has become an Institution whose high standing and repute is widely recognised in the Academic world. It would be impossible to overstate how much we owe to the work of our first Principal in attaining that result.

To touch briefly on the work of the different Departments—or rather Faculties:

Those Engineering students who obtained the Diploma of the Polish University College have already found their place in British professional life, or overseas, and as you are no doubt aware, the various professional bodies are prepared to consider graduates holding our Diplomas for exemption from their professional examinations.

The School of Architecture has continued, since its Liverpool days, with its excellent curriculum leading to the Diploma in Architecture of the Polish University College. Furthermore, its work has attracted the interest, and earned the praise, of many well-known British Architects.

The Department of Economics and Commerce was an entirely new venture, and had no war-time background. Its success has been proved in the last three years, by the achievements of students taking the University of London External Degree Examinations.

And now a word about our staff. I have never been a Teacher, but over many years I have mixed with the Teaching Profession at University level, and I think that the process known as assimilation by contemplation has given me some sort of background for evaluating a Teacher's work. I have nothing but praise for the work of the staff of this College, both in quality and in devotion to duty. Many of

them had not been professional University teachers previously, and yet they adapted their abilities and knowledge to the work and aims of the Polish University College, teaching not only the Polish curriculum side by side with the London University curriculum, but also teaching in English. The results achieved by our students are proof positive that their teaching has been, in every way, entirely successful.

You, graduates too, were handicapped by the necessity of studying in a foreign language, by the difficulties facing you in adapting yourselves to new methods of training, and a different way of life; and by the many personal problems which beset all exiles. But you have striven, and striven successfully, to overcome all the obstacles. This is borne out by the fact that the majority of you have found employment in your own particular professional sphere; that you have all helped, by your abilities, and by your efforts, once you had graduated, to pave the way for your successors, and to establish amongst employers acceptance of the fact that the graduates of the Polish University College are well-trained men and women.

Let me end by borrowing part of the motto of another famous English School: FLOREAT.

And by that I mean just this: Even when the work of the Polish University College itself has finished, there will remain the fellowship of men and women whom it has brought together. To each one of you within that fellowship I say: "May you prosper."

PRESENT ORGANISATION

The Polish University College is administered by the Ministry of Education through the Committee for the Education of Poles in Great Britain, and rules of admission and other regulations are in line with those in force for British ex-Servicemen students who are in receipt of grants under the Further Education and Training Scheme.

GOVERNING BODY OF THE POLISH UNIVERSITY COLLEGE

Chairman:

SIR WILLIAM BROCKINGTON, C.B.E., M.A.

SIR GEORGE GATER, G.C.M.G., K.C.B., D.S.O.

COUNT EDWARD RACZYNSKI.

G. T. HANKIN, Esq.

A. J. S. PIPPARD, M.B.E., D.SC., M.I.C.E., Professor of Civil Engineering, Imperial College, University of London.

O. KAHN-FREUND, L.L.M., DR.JUR., Reader-in-Law, London School of Economics and Political Science, University of London.

G. H. BOLSOVER, O.B.E., PH.D., Director, School of Slavonic and East European Studies, University of London.

SIR HAROLD CLAUGHTON, C.B.E., M.A., Principal, Polish University College.

H. P. HERBICH, D.SC., DIPL. ING., A.M.I.C.E., Vice-Principal and Professor of Civil Engineering, Polish University College.

V. M. NARBUTT, PH.D., D.I.C., DIPL. ING., A.M.I.E.E., Professor of Electrical Engineering, Polish University College.

PROFESSOR S. SKOCZYLAS, DIPL. ING., Curator of the Polish University College Students' Union.

S. POLUJAN, ING. ARCH., Professor of Architecture, Polish University College.

ACADEMIC BOARD

All matters concerning curricula are under the supervision of the Academic Board.

Chairman:

H. P. HERBICH, D.SC., DIPL. ING., A.M.I.C.E.

Vice-Principal and Professor of Civil Engineering.

Z. D. JASTRZEBSKI, DIPL. ING., M.I.CHEM.E., Professor of Chemical Engineering.

J. KESTIN, PH.D., D.I.C., DIPL. ING., A.M.I.MECH.E., Professor of Mechanical Engineering.
 K. PILAT, DR.TECH.SC., DIPL. ING., Director of Studies, Intermediate Courses Department.
 Z. LOMNICKI, MGR. PHIL., Assistant Professor of Economics.
 S. J. MAZUR, PH.D., D.I.C., DIPL. ING., A.M.I.C.E., Assistant Professor of Civil Engineering.
 V. M. NARBUTT, PH.D., D.I.C., DIPL. ING., A.M.I.E.E., Professor of Electrical Engineering.
 S. POLUJAN, ING. ARCH., Professor of Architecture.
 PROF. S. SKOCZYLAŚ, DIPL. ING., Curator, Students' Union.
 A. SMIGIELSKI, DIPL. ING., Assistant Professor of Town Planning.
 S. SWIANIEWICZ, DR.JUR., Professor of Economics.
 T. TCHORZEWSKI, DIPL. ING., A.M.I.E.E., Assistant Professor of Electrical Engineering.
 W. H. THOMAS, M.A., Assistant Professor of English.
 S. K. ZAREMBA, DR. PHIL., Professor of Mathematics.
